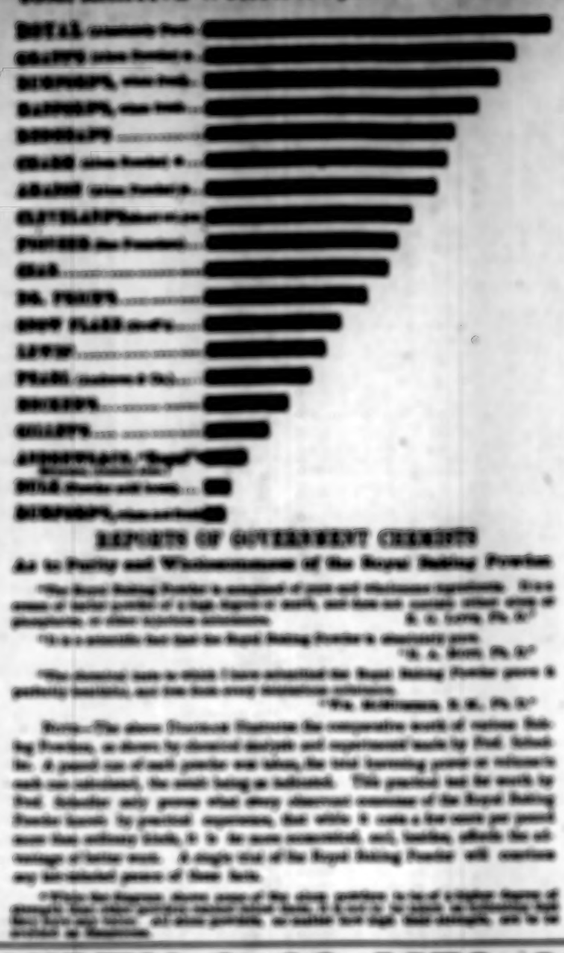
COMPARATIVE WORTH OF BAKING POWDERS.



REPORTS OF GOVERNMENT CHEMISTS

As to Purity and Wholesomeness of the Royal Baking Powder.

"The Royal Baking Powder is composed of pure and wholesome ingredients. Every ounce of cream of tartar possesses its full quantity of a high degree of purity, and does not contain either alum or phosphates, or other injurious substances. E. G. LOVE, Ph. D."

"It is a scientific fact that the Royal Baking Powder is absolutely pure. "C. A. ARNY, Ph. D."

"The chemical tests to which I have submitted the Royal Baking Powder prove it perfectly healthful, and free from every objectionable substance. "WM. MCMURTRIE, M. D., Ph. D."

Note.—The above Chemical Statements the comparative merits of various Baking Powders, as shown by chemical analysis and experimental tests by Prof. Schedler. A pound can of each powder was taken, the test leavening power or moisture in each was calculated, the result being as indicated. This practical test for merits by Prof. Schedler only proves what every observant consumer of the Royal Baking Powder knows by practical experience, that while it costs a few cents per pound more than ordinary kinds, it is the most economical, and, besides, affords the advantage of better work. A single trial of the Royal Baking Powder will convince any intelligent person of these facts.
